

CEE*QUEST 5% COPPER

S5Cu70

CEE*QUEST Copper (S5Cu70) is a copper chelate prepared from ENCEE's sugar acid based chelating systems. The copper is water soluble. The product can be used as a source of copper in agricultural and industrial applications.

This product is biodegradable.

This product is not stable in phosphate solutions.

PRODUCT DATA

Copper as Cu	5.00% 0.50 pound of copper per gallon
Nitrogen, Total	5.2% 0.52 pounds of nitrogen per gallon
Color	Dark Red
Specific Gravity	1.2208 at 72°F
Density	10.17 lbs/gal
pH	8.9
Crystallization Point	Below 40°F
Solubility	Miscible with Water, Alkaline nitrogen solutions
Containers	Tank Trucks, Drums
