

PRODUCT DATA SHEET

CEE*QUEST 6% ZINC

S6Zn70

CEE*QUEST ZINC (S6Zn70) is a zinc chelate prepared from ENCEE's sugar acid based chelating systems. The zinc is water soluble. The product can be used as a source of zinc in agricultural and industrial applications. ***This product is biodegradable. This product is stable in phosphate solutions containing a minimum of 25% of the phosphate in the polyphosphate form.***

PRODUCT DATA

Zinc as Zn	6.00% 0.63 pound of zinc per gallon
Color	Dark Red
Specific Gravity	1.267 at 72°F
Density	10.55 lbs/gal
pH	5.4
Crystallization Point	Below 40°F
Solubility	Miscible with Water, Fluid Fertilizers, Alkaline nitrogen solutions
Containers	Tank Cars, Tank Trucks, Drums

1/2001
